

# testo 420 Flow Hood System

**Accurate, lightweight and rugged.**

- CFM
- FPM
- °F
- %RH
- Absolute Pressure
- Diff Pressure
- Wet Bulb
- Dew Point

---

Integrated flow straightener **greatly improves** measurement at turbulent outlets

---

Weighs less than 6.4 lbs. (2.9 kg.)

---

Detachable 420 Differential Pressure instrument with large backlit display can be tilted to optimize viewing angle

---

Quick, easy remote monitoring and reporting with Bluetooth and free App

---

Data logging using on-board 2 GB memory, logged data can be transferred to PC using mini-USB cable.

---

The new testo 420 flow hood system is light, accurate and a convenient solution for balancing volume flow at supplies and returns. At turbulent outlets, the flow straightener significantly improves measurement accuracy, saves time and eliminates the uncertainty of measuring turbulent outlet ducts. Handling is especially easy with its ergonomic handles and low weight of less than 6.4 lbs.

The 420 Differential Pressure instrument can be tilted for optimum viewing angle.

The powerful App is configured to:

View measured data from a remote location wirelessly on smartphone / tablet (65ft.).

Log data and display results then transfer to PC using micro-USB cable.

Send measured values via email as a report file in .pdf or Excel format

Runs with devices using Android 4.3 or iOS 7.1 and higher

# Technical data

**testo 420 Flow Hood System Set**

Includes: testo 420 flow hood base, **t420 Differential Pressure Instrument, Pitot Flow Matrix**, 24" x 24" flow hood with **supporting rods**, USB cable, batteries, soft case w/handle and wheels and **Optional NIST Certification**

Part no. 400563 4200

### General technical data

Operating temperature	23 to 140 °F (-5 to +60 °C)
Storage temperature	-4 to 140 °F (-20 to +60 °C)
Weight	6.4 lbs. (2.9 kg)
Standard hood	24" x 24" (610 x 610 mm)
Battery type	Type AA
Battery life	30 hrs
Display	Dot matrix <b>LCD with backlight</b>
Memory	2 GB internal
Interface	Micro USB
NIST Certification	Optional
Warranty	2 years

### Key Features:

- \* Data logging directly to on-board 2 GB memory.
- \* Convenient joystick navigation within menu for setting up individual folders
- \* Total volume flow in CFM (cubic feet per minute) is displayed
- \* Individual measurement data saved in folders can be recalled and displayed as total volume flow of all measurements.
- \* Logged data can be transferred to PC using micro-USB cable

Functional principle of the flow straightener.

Flow straightener significantly improves accuracy of measurements at turbulent outlets.

Bluetooth App allows for hands free operation, displaying measurement data on mobile devices and finalizing **and sending the measurement report** via email from the job site.

Sturdy, wheeled tripod (optional) with central fitting for safe measuring of high ceiling outlets.
