

WD-M013 Optical Film Abrasion Tester

Standard

Description

The machine is mainly use in light load friction test.

Appearance

Specification

Weight load	10gx2、20gx2、30gx1、50gx2、100gx2、200gx2、 300gx1、500gx2、1000gx2
Abrasion speed	10~100 mm/sec
Abrasion distance	10~120 mm is adjustable on controller setting
Abrasion position	Randomly adjustment
Counter	1 ~ 9,999,999 times can be set & auto stop when test is finished
Accessory	Test abrasion head ψ 10mm、 ψ 30mm、 ψ 50mm each one pcs
Dimension	94 × 35 × 40 cm
Weight	66 kg
Power	100V~240V, 50/60HZ

Features

Specimen placed on a movable platform, abrasion head is designed to be able to zero setting of original load and test load can be set to 50-2000g. Light friction test on surface treated optical film, color fastness test for textile, printing fastness test for coating, etc. Test speed, stroke, load and times all can set according to different conditions.
